

## **Message from Chair of Governors – Autumn Term 2023**

It was great to have a tour of the school prior to our first board meeting in September to see the work which had been completed to decorate and freshen up the school. The new outdoor area and equipment for nursery looks fantastic and it's really pleasing to see continued investment in improving the school.

When I visited the school in November it was lovely to see the efforts being made to ensure how the school and the curriculum is adapted for children with Special Educational Needs, ensuring an inclusive education for all. The behaviour and engagement shown by the children was also positive. Feedback from other governor visits has also been very encouraging.

It was wonderful to hear about the range of events and activities happening in school for Christmas, especially the pantomime which I hear was very popular! Finally, I'd like to thank the PTA for all their support to the school, it's great that this has been reestablished following the pandemic.
